THE GRAND CONCLAVE.

The Triennial Grand Conclave of Knights Templar of the United States was held at Louisville this week, and was a success from start to finish.

The parade on Tuesday was simply superb. The weather, which had been rainy and dismal, during the early morning, cleared off beautifully; and, by the time for the parade to form, was all that could be asked for, and the streets had been thoroughly cleaned by the down-pour.

It is estimated that there were at least 35,000 plumed knights in the procession, which took about four hours to pass the reviewing stand.

There were knights present from all parts of the country, and it was a gala time for all.

The generous rivalry between different cities for the holding of the next Conclave was spirited but friendly.

Louisville and the Kentucky contingent laid themselves out to entertain their guests, and they did it royally.

REOPEN MONDAY.

The city schools, white and colored, will reopen for the year on Monday morning. The long vacation has given both teachers and scholars a good rest, and they will, doubtless, enter upon their duties for the next year with renewed zeal and energy.

There will be a larger enrollment of scholars this year than ever before, and we have as able, if not abler, corps of teachers to work with.

FOR A CHILD

who is "not doing well"—the condition occurs now and then with all children.

Scott's emulsion of cod-liver oil is a food that begins to build you up at once—of course it don't show at once.

"Not doing well" means that the child is not getting the good of his food. Not to-day, of this week; it may have been going on for a month; before it begins to show in the child's condition.

You want him to get back to turning his usual food into strength.

You want the food that begins to build up at once.

THANKS.

We have been placed under obligations to Mr. Loraine Rogers for a copy of the Beaumont (Texas) Enterprise, in which is a thorough write up, with illustrations, of the Texas oil fields.

The results already accomplished and the outlook there for still further attainments is simply marvelous.

As a fair illustration, U. S. Senator R. Q. Mills owned a farm thought to be hardly worth paying taxes upon. It is right in the oil field, and has made Mr. Mills a millionaire.

SPOONER DRAMATIC CO.

Begins its Engagement at Capital Theatre September 2d.

The Danville (Va.) Daily Register says: The Spooner Dramatic company made a most pleasing impression in their first performance of a week's engagement at the academy of music last night. A large audience greeted the players and received their work with enthusiasm throughout the performance.

The opening night's bill was "By the King's Command," a French comedy-drama that, while cast on the old lines, sustains the interest of the audience easily, and received a very smooth and clever interpretation last evening. The scenic accessories were notably good, the costumes handsome, and the cast very even and quite capable. Mr. Spooner, in the role of "Isadore," a baker, had the leading comedy role, demonstrated his cleverness and versatility as an entertainer and made a hit with the audience. The company received and deserved the favor and approval of the audience.

A feature of the performance was the specialty work which was unusually good. Miss Annie Spooner sings catchy songs very catchily, and her serpentine and kaleidoscopic dances are novel and beautiful. Mr. Spooner's comic songs brought forth clamorous recalls from his audience, and there's no telling when they would have wearied of hearing had he continued to respond. Illustrated song by Miss Spooner was another feature.

The Spooner Dramatic company will appear at Capital Theatre all next week.

Popular prices—10, 20 and 30 cents. Ladies 15 cents for best seat if secured before 6 p. m. that day.

POOL ROOMS CLOSED.

Mayor Dehoney issued an order on Saturday afternoon, requiring the police to close up the two pool rooms that have been running in this city. The order was executed and the houses closed. It is unnecessary to say that the grand jury meets on Monday week.

THANKS.

We desire to return our thanks to Mr. W. B. Moore, of Shelby county, for a selection of splendid peaches, apples and pears. They were a treat, and we greatly enjoyed them.

SOUVENIR NUMBERS.

The Evening Post, the Times and the Courier-Journal did them selves proud in getting out their special Conclave issues, showing great energy, fine facilities and comprehensive views of the work in hand. We desire to compliment every one of these establishments on their enterprise.

THE THRUST OF A LANCE

is scarcely more agonizing than the recurrent pains in the abdomen which follow the eating of improper food or too free indulgence in ice water. The immediate cause of cramps and colic is often the distention of the bowels by gas. Quick relief follows the use of Perry Davis' Pain Killer. Careful housekeepers give it the place of honor in the family medicine chest.

LEG BROKEN.

We regret to learn that Postmaster J. W. Berryman, of Versailles, was so unfortunate as to have his leg broken on Saturday last.

It seems that Mr. Berryman and his wife had started in a buggy to Nicholasville to visit relatives, and, about a mile from Versailles, the horse they were driving became frightened and began to kick, striking Mr. Berryman on the right leg breaking the large bone below the knee.

We are glad to say that he is doing as well as could be expected under the circumstances.

SLIGHT BLAZE.

At 8:45 on Tuesday afternoon an alarm sent in by telephone called the fire boys to the residence of Mr. ——— Bell, next door to Mr. N. I. McDaniel, Kentucky Avenue, West Side. There was a slight blaze in the roof, which was soon extinguished, inflicting a loss of some \$25 to \$50.

HOW GENERAL GRANT LOST HIS "HIRAM."

Not many Americans know that Hiram U. Grant was the eighteenth President of the United States. Yet it is true, for "Ulysses Simpson" was never legally the name of our greatest general. This interesting fact is brought out by Franklin B. Wiley in The Ladies Home Journal for September, in "Famous People as We Do Not Know Them." The story of how it came about was told by a member of Congress—Thomas L. Hamer—who recommended young Grant as a candidate for West Point in 1859. Mr. Hamer had long been a friend of the Grants, but when he came to make out the application papers for Ulysses he could not recall the boy's full name. So, deciding that he was doubtless named for his mother's family, he wrote it "Ulysses Simpson Grant." This was it recorded at West Point, and though the attention of the officials was several times called to the error they did not feel authorized to correct it. This name was gradually adopted, and by it Grant was, and always will be, known. But as for any record of the birth of "Ulysses Simpson Grant," that does not exist.

WHAT A TALE IT TELLS.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25 cents at J. W. Gayle's.

IT'S AN ILL OMEN.

Thinks the wife, to have the wedding ring slip from the finger. "Something is going to happen."

Something is happening. That ring could hardly be pulled from the finger when it was put there a few years ago. Now it slips off by its own weight. How thin the fingers have grown! And the fingers don't grow thin alone. How thin the face is and how thin the once plump form. Almost unconsciously the wife has been fading and wasting away. The strength given to children has never been regained. Drains which should have been stopped have been neglected.

That is a common experience with women, unless some friend has shared with them the secret of the strengthening and healing power of Dr. Pierce's Favorite Prescription. It regulates the periods, dries the drains which undermine the strength, heals inflammation and ulceration, and cures female weakness. It makes the baby's advent practically painless and gives vigor and vitality to nursing mothers.

Words cannot tell how grateful I am for your kind advice and good medicines," writes Mrs. John Cooke, of Hastings, Northumberland Co., Ontario. "I have been at your health four years back and this spring got so bad I could not do my work. I went to the doctor and he said I had ulceration and falling of the internal organs, but thought I would try your 'Favorite Prescription.' I took five bottles and three of the 'Golden Medical Discovery' and one box of Dr. Pierce's Pellets, and I can safely say that I never felt better in my life."

A Ladies' Laxative. Dr. Pierce's Pleasant Pellets. One single, small pellet is a laxative dose.

A CAUSE FOR REJOICING.

There are living in this country quite a number of teachers and other prominent citizens who received their education within the walls of the National Normal University, at Lisbon, Ohio. All of these have a very warm place in their hearts for this famous institution, and we are sure they will rejoice to learn that the outlook for the university for the coming year is very bright indeed. Many improvements have been made and a faculty has been engaged that is probably superior in education and in teaching ability to any that the school has had for years past. The institution will have at its head, Prof. J. Oscar Creager, an experienced educator, who, after spending several years in Normal Schools, has taken special work in the Ohio State University, in Harvard and in Yale, receiving from the latter the degree of A. B. and M. A.

Graduates from this institution can be found in all parts of the land, engaged in every occupation. They attribute their well recognized success not alone to the thorough education and practical common sense equipment which one is able to obtain at Lebanon, but also to the energy and spirit which are instilled into every one who attends this school.

While the training of teachers is an important work of the school, and has given it an enviable reputation, yet in the many other departments which are sustained, young men and women are prepared by the best methods for every business and profession.

There is probably not another school in the land where so many superior advantages can be had in the time and for the small amount of money. The tuition is \$5 per session or \$38 for the year of 48 weeks. Good board can be had for \$1.50 per week.

The school is located in the beautiful town of Lebanon, and since it was established there in 1855, has trained more than 50,000 students. To any one seeking an education we would recommend this institution. A catalogue can be had for the asking.

A LITTLE PRINTERS' INK.

The more people read the more they think, and the more they read about a man's business the more they think about the man and his business and when once an interest is awakened action follows, an investigation takes place and the cause has produced its legitimate effect. If a man advertises that he has certain wares for sale and will sell at a bargain, people who read the paper will investigate as sure as night follows day, and if they find he has stated facts they will spend their money then and there. Then advertise judiciously; state facts and do whatever your "ad" says you will do. Follow this up and you will soon realize that printers' ink is a power.

"Digests what you eat."

IN MEMORIAM.

Of Mrs. Lula Phillips, the only and beloved daughter of Mrs. Lucy Moore, who died July 22, 1901, aged 19 years, 5 months and 9 days. She had been a devoted Christian and a member of the North Benson Baptist Church for six years; had been married but a short while, and had, for months, been a constant sufferer from consumption, but her sufferings were borne without a murmur. She was faithful to the very last; was her mother's joy, and was supremely loved by her husband. But God knows best. He has prepared a place for her in the bright world above, and had called her home. Now she has crossed over the river to that bright, celestial sphere, where she awaits the coming of the dear beloved ones left behind. Her funeral was conducted by Rev. J. H. Burdin, after which she was laid to rest just behind the little village church, of which she had been a faithful member.

Dearest loved one, we have laid thee

In the peaceful grave's embrace,
But thy memory will be cherished
'Till we see thy lovely face.

We miss thy kind and loving hand,
Thy fond and honest care,
Our home is dark without thee—
We miss thee every where.

One by one our hopes grow brighter
As we near the shining shore,
For we know across the river
Wait the loved ones gone before.

Jesus, while our hearts are bleeding,
O'er the spoils that death has won,

We would at this solemn meeting,
Calmly say "Thy will be done."

Farewell! farewell, dearest Lula,
Let this sweet hope be our stay:
You will rise and bid us welcome
In the Resurrection Day.

FRANKFORT, AUGUST 31, 1901.

TERRIBLE ACCIDENT.

On Wednesday morning one of the most heartrending accidents occurred on the Versailles pike, two miles from the city, which it has ever been our fortune to chronicle.

The family of Capt. Ed. Porter Thompson had started out to the country to make a visit. In going down a hill at the two mile post, while the horse was traveling at a rapid gait, one of the reins broke, when the driver attempted to check up the animal. The frightened driver held on to the other rein, thus pulling the horse off to one side of the pike. Before he could be stopped he ran between a telephone pole and a stone fence, crushing the surrey to kindling wood, throwing the occupants of the vehicle out, two of them over the fence, together with a wheel of the surrey.

We make a summary of the injuries as follows:

Mrs. Ed. Porter Thompson, ankle sprained and badly bruised about the body.

Miss Katie V. Thompson, daughter, right leg broken above the knee, bruised under the chin and about the body.

Miss Una Sudduth, niece, sprained ankle and body bruised.

Miss Francis Orr, granddaughter, cut on forehead, requiring six stitches to close up.

Edwin Orr, grandson of Capt. Thompson, severely bruised about the body, internal injuries, causing spitting of blood.

Elliott Orr, another grandson, skull crushed, concussion of brain, fatally injured.

Friends passing took the whole party to the residence of Mr. D. Meade Woodson and Mrs. James Wallace, Garrett and Keller were summoned.

After making the injured party as comfortable as possible, they were brought home on cots in wagons and their injuries attended to.

From those who were present we learn that it was a miracle almost that every one of the party were not instantly killed.

Capt. Thompson's home is a veritable hospital, and the family have the tenderest sympathy of every one in this community.

DANGEROUSLY HURT.

We regret to chronicle the fact that Mr. Al. W. Smith, commercial evangelist for Messrs. John P. Morton & Co., of Louisville, was dangerously hurt on Saturday last by being thrown from his buggy.

It seems that Mr. Smith was on his way to the farm of his nephew, Mr. Richard Morris, on the Owenton pike, and, when just beyond the Cove Spring bridge, at Mrs. Pepper's place, the horse became frightened and whirled quickly around throwing Mr. Smith out, where he fell on his head at the bottom of the fill, cutting and tearing the scalp from the back of the skull, bruising his

right shoulder and otherwise injuring him internally, rendering him unconscious.

Mr. Smith was found by persons passing, put into Mr. Thos. Hampton's buggy and brought to the city, where his injuries were attended to by Dr. E. E. Hume. He was then taken to the residence of his niece, Mrs. Chas. W. Saifell.

It was feared, at first, that his injuries would prove fatal, but he is now doing as well as could be expected.

Mr. Smith is a very popular gentleman, and his wide circle of friends regret his misfortune.

RESIGNED.

We regret exceedingly to announce that Dr. W. C. Curran, who has been with Dr. S. B. Holmes, in his drugstore, this city, for several years, has resigned his position in order to accept a more lucrative place with a Philadelphia wholesale house.

Dr. Curran is a regular graduated pharmacist, a first-class business man, and, better than all, a gentleman in every sense of the word.

While we are glad to know that he has a better position financially, we regret to lose him from our community, where he has made a host of friends by his urbanity and uprightness of life.

We wish him abundant success in his new field.

Hammond & Co. have just received a car load of the celebrated Washington Red Cedar Shingles. These are the best shingles that ever came to this market. They have \$5,000 of them sold in advance. There was 175,000 in the car. 51-1t.

WHAT A TALE IT TELLS.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25 cents at J. W. Gayle's.

COMMUNICATED.

Harvieland, Ky., Aug. 26, 1901. Editor Roundabout:

Will you kindly allow me space to thank the neighbors and friends who so faithfully stood by us and lent us such a helping hand in the last illness and death of my darling sister, Mrs. Dr. Miles.

OSCAR CLARK.

ILLUSTRATED WRITE UP.

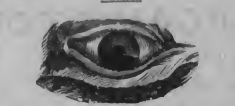

We are in receipt of a copy of the very handsome illustrated write up of the little city of La Grange, by those enterprising gentlemen, Messrs. Z. O. King and W. H. Wilson, of the Oldham County Index.

It is well written, neatly printed and generally good narration of affairs in that sprightly little place.

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and seldom heard of appendicitis, nervous prostration or heart failure. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. South, Longmoor & Co. 42-1y.

By Special Request Dr. Goldstein Will Return Sept. 7, and can be consulted at the Capital Hotel During His Stay Here.

Having had many years experience with a large practice all over the State, he is enabled to relieve those persons having any ailment of the eyes causing pain and imperfect sight. The Doctor will examine your eyes and fit them with perfect glasses.

In all cases of imperfect vision and headache caused thereby, a perfect spectacle will give relief. To eyes tired, weak, painful, dimmed or blurred, they offer a strengthening rest and refreshment. In other words, remove the cause of the difficulty, and the eyes will have their original brightness, beauty and health. It requires professional guidance even when the best article is offered, as the eyes are frequently dissimilar, and many require compound lenses.

The Public Lenses are the most highly esteemed of any used in spectacles resulting from the hardness of the material, their transparency, and more than all to the fact that they are accurately ground. To fully appreciate the importance of using the spectacles with perfect lenses, it is not necessary to state the fact that the lenses used in spectacles all but a very small per cent, are NOT GROUND but merely moulded or pressed into form, and are very injurious to the eyes.

We distinguish between faults of accommodation and refraction. The latter is inherent in the form of the eye, the former belongs to the performance of its function. Both are frequently mingled in the same case, but each can be distinguished from the other. Errors in the form of the eye are as follows: Its axis is too short (Hyperopia); its axis is too long (Myopia); its curves are not symmetrical, or the composition of its refractive media is not uniform (Astigmatism).

The last mentioned error may be combined with either of the two preceding. Many persons use glasses of too great a refractive power or too strong a magnifying power, supposing they see better, or to economize that they may not hold the type so far away from them in so short a time; this is entirely a mistake. As this causes the convexity of the eye, causes a hardening of the crystalline lens, and you will have to change for still stronger lenses in rapid succession and lose the power of accommodation, or else the power to adjust your eyes to different distances, consequently you will have to wear glasses for near and distant vision. This can be avoided by using spectacles of proper focal power.

Dr. Goldstein knowing how ignorant the average person is of the laws of nature, and the permanent injuries resulting therefrom, and the oftentimes good results growing out of retraining people of what they already know, desires to benefit them as well as himself.

FRANKFORT COMMANDERY NO. 4 AT THE CONCLAVE.

We clip the following from the Evening Post of Thursday last:

Frankfort Commander, No. 4, is enjoying its visit to Louisville for all there is in it, and Capt. Newt. Abram, with his crew on the Steamer Falls City, is doing the duties of host in the most pleasing manner for the visitors. This commandery now numbers sixty members, of whom there were fifty-three in line during Tuesday's parade. It was the fourth commandery installed in Kentucky, and its roster shows many of Kentucky's most distinguished names, who have long since "crossed the river to rest under the shade."

To-day there are three Past Grand Eminent Commanders among the other Sir Knights aboard the Falls City, as follows: Most Eminent Sirs Jacob Swigort, J. W. Pruett, and James M. Saffell. Eminent Sir George A. Lewis, the present Grand Generalissimo of Kentucky, is also one of Frankfort's commanders. The overseers: Eminent Commander, Mason P. Brown; Generalissimo, H. H. Roberts; Captain General, D. W. Lindsey; Senior Warden, G. Stagg; Junior Warden, J. P. Selbert; Swordbearer, Theo. Wylie. Last night the commandery enjoyed an open house reception to all sir knights and their ladies.

"A CAPITOL COMEDY" COMING.
 One of the most important bookings for the entertainment of local amusement seekers so far consummated is that which calls for the appearance here, on February 7th, of Mr. Tim Murphy in Paul Wilstach's new play of Washington life, "A Capitol Comedy." This piece was tried last spring and proved to be a strong comedy of modern American life with a delightful role for the popular comedian. Having demonstrated the value of his drama Mr. Murphy spent the summer superintending the most elaborate production he has ever made. Young has painted the scenery from models provided by Mr. Murphy himself, who went with Mr. Wilstach to Washington to photograph the exact localities of the scenes of action. The local management will be called upon to furnish nothing on the stage but lights and the drop curtain. One of the most striking scenes in A Capitol Comedy is that of the third act showing the corridor of the Senate wing of the United States Capitol. Every detail of the architecture will be faithfully reproduced even to the mosaic tiling in the floor and the perspective of the Senate chamber through the center doors. Mr. Murphy has engaged the strongest company which has ever surrounded him and rehearsals begin in New York City on August 31.

A MINISTER'S GOOD WORK.
 "I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kas. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea and he said No." I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured. I think it the best medicine I have ever tried." For sale by J. W. Gayle and South & Longmoor.

RECENT ADVANCES IN PHOTOGRAPHY.
 The camera of the amateur photographer is playing an important part in the world of art these days. A delightful phase of its value as a depicter of Nature is shown in the Ladies' Home Journal for September. In this issue two pages are given to the last of that magazine's prize photographs of rural scenes, and the collection is a notable one, interesting alike to the picture-taker and the lover of pictures. Some of the scenes have all the distinguishing qualities of paintings, with the added charm of being true to Nature.

FINE SERMONS TO LARGE CONGREGATIONS.

Rev. W. C. Taylor, D. D., who has been visiting in this city for the last ten days, preached two strong and eloquent sermons at the First Baptist Church, in this city, on Sunday last. There were large congregations present at both services, but the night congregation taxed the seating capacity of the big audience room.

Every one present greatly enjoyed the sermons, and this beloved minister and eloquent preacher more than ever endeared himself to the people by his tender and yet forceful presentation of his subjects.

While here Dr. Taylor was the recipient of many social courtesies, and left for his home in Indianapolis, Ind., on Monday, more in love with the good people of our city than ever before.

He carried with him the love and respect of a host of warmly attached friends.

STREET CARS TO BLACK'S POND.

Editor Roundabout:

Why not extend the street car line from the cemetery gate to Black's pond, and then let it take its chances of being hereafter extended to the Forks or Switzer, Stamping Ground, Mrs. Polk South's school or Woodlake as the demand for it may justify? It is only two miles to Black's pond, and the street car service that far would certainly not be a heavy burden on the treasury of the city. A beautiful pond into one of the most desirable pleasure resorts in the entire South. With a few cheap flats and buildings for the accommodation of the people who would resort to this famous little lake it could soon be made to yield an income equal to the entire income of any one of the banks in Frankfort, and the constant flow of passengers would pay the company well. Besides this the colored Normal School, with its 300 students, would prove a constant stream of money into the treasury of the Street Car Co. And over and above all this there would soon be a continuous town of first class residences from the present limits of Frankfort to the lake. Now that Frankfort has waked up once more and commenced growing again in dead earnest, this extension of the street car service to this lake, along a pike already graded, seems to be the one thing they needed to keep Frankfort forward. It will bless the street car company, and it will bless the people and add greatly to their prosperity. Let us have this extension at once.
